

To Whom It May Concern:

I wish to express my strong support for the continuation of the water line replacement project. I support city officials in doing all they can to pursue funding opportunities to ensure their success. The water lines have not been replaced, unless the city is ready to begin the next phase as soon as funding is secured, and I believe that with collective efforts, we can make this project a reality for the benefit of our community. You must understand all the good this project can do for our community.

Thank you for considering the City of St. Clairsville's application. I am certain that they will make the most of this opportunity and continue to contribute to rebuilding the infrastructure of this city.
